

Dear ,

I'm glad to send this Email to you, since you had a trip in Canada, I'd like to planning a vacation either.

This vacation might in two months later, which is June. Because it might be really hot in June. Therefore, I might go to some small surrounding China, because I always addicts on something I haven't done, such as scuba diving and boating. but in another way, people always go to these island in summer, so that it might full of people, and the price will be really high. ~~The another~~

The another plan is Tibet, The Tibet is surrounding by the high mountain, such as Himalaya. It might be the heaven of mountaineering, but actually, it's really dangerous when you hiking.

So, ~~what~~ what will you do when you make this decision?

Best regards,

C1401
